#### 19.001 Definitions.

As used in this part—

*Concern* means any business entity organized for profit (even if its ownership is in the hands of a nonprofit entity) with a place of business located in the United States or its outlying areas and that makes a significant contribution to the U.S. economy through payment of taxes and/or use of American products, material and/or labor, etc. “Concern” includes but is not limited to an individual, partnership, corporation, joint venture, association, or cooperative. For the purpose of making affiliation findings (see 19.101), include any business entity, whether organized for profit or not, and any foreign business entity, *i.e.*, any entity located outside the United States and its outlying areas.

*Fair market price* means a price based on reasonable costs under normal com-

petitive conditions and not on lowest possible cost (see 19.202-6).

*Industry* means all concerns primarily engaged in similar lines of activity, as listed and described in the North American Industry Classification system (NAICS) manual (available via the Internet at <http://www.census.gov/epcd/www/naics.html>).

*Nonmanufacturer rule* means that a contractor under a small business set-aside or 8(a) contract shall be a small business under the applicable size standard and shall provide either its own produce or that of another domestic small business manufacturing or processing concern (see 13 CFR 121.406).

*Small business concern* means a concern, including its affiliates, that is independently owned and operated, not dominant in the field of operation in which it is bidding on government contracts, and qualified as a small business under the criteria and size standards in 13 CFR part 121 (see 19.102). Such a concern is *not dominant in its field of operation* when it does not exercise a controlling or major influence on a national basis in a kind of business activity in which a number of business concerns are primarily engaged. In determining whether dominance exists, consideration shall be given to all appropriate factors, including volume of business, number of employees, financial resources, competitive status or position, ownership or control of materials, processes, patents, license agreements, facilities, sales territory, and nature of business activity.
